

Annales School (Writings by Braudel, Wallerstein and Arrighi – just a Table)

By Shomit Sirohi

Table of References in Annales

- I. Usually three paragraphs in simple definition in Spinoza which is called geometry by Louis Althusser – readers find Spinoza about pure geometry in Annales which is how it begins its debates
- II. Geometry – a Ethics in Dialectical Materialism – such debates in France in the 1950 – 1990 period

Now just complexly study Spinoza's Ethics – Cornel West, Badiou and Sirohi argue it is like a line usually which depicts all the topics, then complex lines – one is rural identity in France and its complications of peasant cycles of harvesting strikes which is the present PCF protest.

Such simplicities in fact is the whole library or archive.

Historical phases of capitalism – long durees	Greece	Mediterranean – and Financial Cycles of Merchant type
One sketch – the painters of impressionism capturing agrarian	Sketches	Sketches

<p>labour.</p> <p>Points of transportation of minting coinage.</p> <p>Impressions of daily crowds.</p> <p>Structures of all aspects combined into national histories.</p>		
<p>Rural histories</p> <p>Race factor - black people histories - canoes, Walter Rodney argues mixed with rural housing and mass protests in rural forms in Upper Guinea which is plantation linked trade for Cuba linked to merchants in Britain.</p>		

Commerce and agrarian histories		
Inventions, science – from Archimedes and Pythagoras to organic visions of artists in African coasts, who have light sciences of in fact canoes and trade.
